Your Group: United States > States > Indiana > Indiana Department of Child Services > North West Region

Name: {member name}

Member Type: {member type}

Training Units: {number of units assigned}

Go to www.FosterParentCollege.com today where you will learn about all the courses available and how it works. Self-Paced Courses are about 30-45 minutes if you are using high speed internet, followed by an interactive question and answer section. Many courses include supplemental reading material as "handouts." When you finish viewing the course and answering the review questions, you will receive your Certificate of Completion. Be sure to visit the discussion boards, which are available for any courses you have enrolled, to share your experiences and thoughts with others.

We also offer expanded courses called "Advanced Parenting Workshops" for further in-depth learning. These courses are available during specified dates and have different course requirements.

You also have free access to any discussion boards and handouts that have been made available by your agency. These are great tools to stay in touch with each other and learn more.
